

conecto Jw

Aesthetic clip-mounted expansion joint cover. The cover made of anodized aluminum is mainly used to cover a gap on wall and ceiling seams ranging from 2 to 15 cm width in places where incombustible materials usage is required. The slim surface element makes it very popular in places where cover profiles should not be too exposed. The installation is exceptionally quick and easy with metal flexiclips.

ADVANTAGES

- installation is possible after plasters are completed;
- can be painted in the wall's color;
- possibility do adjust clips to joint width.

Types of clips:

width 15-35 mm

width 35-80 mm

width 70-120 mm
